

# CUBE35: AV-supercharged educational space

*EDUiLAB, Tilburg University*

Chiara Baldo & Aukje Leufkens

# Introduction and background

- Mission: “Let’s innovate together and set education in motion”
- Opportunity to redesign 54 m<sup>2</sup> space
- Collaboration with consortium of private parties, all active in the field of audiovisual technology and applications: LearnAnywhere
- Outcome: Jan 2021, fully-fledged future-proof education space

## EDUiLAB Team

# Features of the innovation room

- 3 white boards with interactive projectors, 4K document camera and video conference camera:
  - 1 for writing (makes teacher transparent and brings out written content)
  - 1 for slides with touch screen
  - 1 for online participants (with opposite monitor)
- 2 powerful mics
- Multifunctional tables & mobile furniture

# Hybrid learning in 2 clicks

- A true one-(wo)man show!
- Challenge 1: Second-class students
- Challenge 2: Spoken communication

# Collaboration in the innovation room

Different forms of collaboration made possible by mobile, stackable, lightweight furniture (max 30 people).
