Call for Contributions

Building the University of Tomorrow: Human- Centered, Smart and Secure

1-3 JUNE, 2027 — **RIGA**, LATVIA

Submissions for the EUNIS·27 Congress are now open!

We encourage submissions within any of our three tracks addressing digitalisation in higher education:

1. Learning, Teaching and Research
2. Governance and Policy
3. IT and Infrastructure

Call for Session Proposals

EXCHANGE KNOWLEDGE. INSPIRE THE COMMUNITY.

Submissions are now open for **presentations, how-to workshops, masterclasses, panel discussions, fireside chats, and digital posters!** If you are advancing innovation, creating impact or championing excellence in digitalisation higher education, governance or infrastructure, we want to hear from you.

SESSION FORMATS

Sessions are offered in limited numbers and allocated to fixed time slots. Each format has a defined duration and learning approach.

How-to Workshops (45 min.)

Hands-on, practice-oriented sessions designed to build skills through active participation and experimentation. Participants engage in interactive activities, collaborative exercises, and small-group work, applying methods and tools during the session—often using their own devices. Each workshop combines focused input with practical application and actionable takeaways that participants can immediately use in their professional context.

Masterclasses (45 min.)

Expert-led sessions offering in-depth insights, advanced perspectives, and practical guidance on a specific topic. Designed for focused, high-level learning, masterclasses combine expert input with interactive elements and applied learning. Delivered by one or more speakers, they provide participants with valuable knowledge, fresh perspectives, and practical approaches to apply in their professional context.

Panel Discussions (45 min.)

Moderated discussions that bring together diverse perspectives and expertise on a relevant topic or challenge. A skilled moderator guides the conversation, encourages constructive debate, and connects contributions to the audience's interests. Active audience involvement is essential, with dedicated opportunities for questions, comments, and exchange.

Presentations (20 min.)
Concise, focused talks that share key insights, innovative ideas, research findings, or practical experiences. Designed to communicate a clear message within a short timeframe, presentations offer an opportunity to inspire, inform, and introduce new approaches or developments to a professional audience.

Fireside Chats (20 min.)
Informal, conversational sessions featuring one or more guests in dialogue with a moderator. Fireside chats explore experiences, insights, and perspectives in an engaging, accessible format. Interactive technologies can be used to collect audience questions and comments, enabling broader participation and a more dynamic exchange.

Digital Poster Exhibition
A digital exhibition showcasing projects, research findings, innovative ideas, and practical experiences throughout the congress. Attendees can explore the posters at their own pace and leave physical notes with comments and questions for the authors. Authors are encouraged to present their posters and engage in face-to-face discussions during networking sessions, fostering knowledge exchange, feedback, and new connections.

Submit your session proposal on EUNI's community platform Orgo
Submission deadline: 22 February 2027

Call for Scientific Papers

ADVANCE KNOWLEDGE. SHAPE THE RESEARCH AGENDA.

Submissions for scientific papers are now open! If you are conducting research addressing digitalisation in higher education, send in your paper.

The submitted papers should not exceed 10 pages excluding references, authors pictures and biographies.

Submitted papers will undergo a single-blind peer-review process conducted by qualified academic experts. All selected papers will be allocated a 20-minute presentation slot during the congress or may submit a proposal for a different session format (see above).

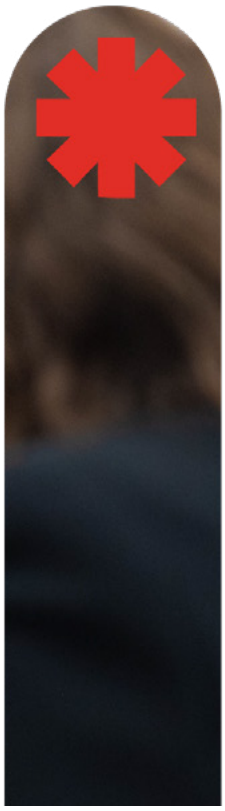

The best papers will be selected for presentation at the congress. All accepted papers will be published in the EPiC Series in Computing. In addition, one submission will receive the **EUNIS Best Paper Award**. Papers submitted by regular EUNIS members that demonstrate outstanding implementation of information systems in higher education may also qualify for the **EUNIS Elite Award**.

Papers not selected for publication may be selected for a short session (see call for session proposals further above) on recommendation of the Scientific Committee.

Submit your paper via EasyChair and ensure your paper follows **EUNIS27 instructions for Authors.**

Submit your manuscript via EasyChair: Submission link.
Submission deadline: 22 February 2027

Why Contribute?

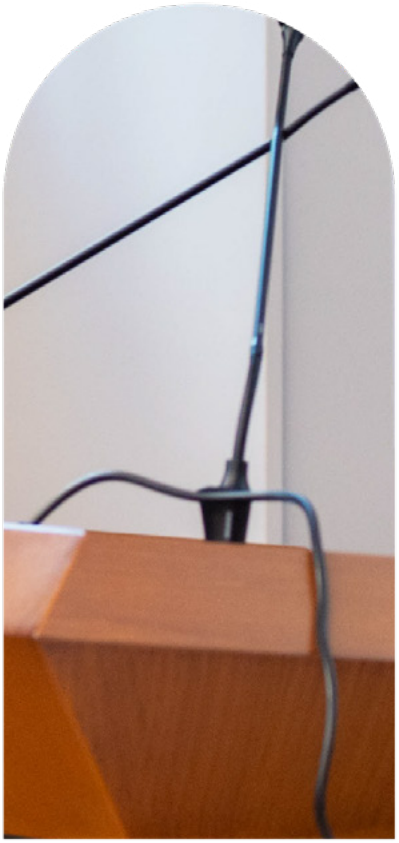

By presenting your work at EUNIS 2027, you will:

- **Connect** with a European community of leaders, higher education professionals, IT experts and researchers.
- **Share** cutting-edge work and enhance your institution's visibility.
- **Broaden** your network, build new connections and energise your future projects.

We look forward to your contributions and insights!

Let's make **EUNIS 2027** an engaging celebration of innovation, collaboration and freedom to **shape the future of higher education together!**
