

# THE FUTURE OF ASSESSMENT AND FEEDBACK

# ABOUT THE ORGANISERS

Supporting edtech innovation globally

- **EUNIS**: a membership organisation for European higher education providers, their professional associations and suppliers
- **GÉANT**: the umbrella organisation for the NRENs (national research and education networks)
- **IMS Global**: not-for-profit membership organisation that develops and maintains international edtech standards
- **Jisc**: a membership organisation providing digital solutions for UK education and research (and is the UK NREN)

# WHY COLLABORATE ON ASSESSMENT?

Because together we can make a difference

- Assessment and feedback is at the heart of learning yet is a major source of student and staff dissatisfaction, stress and workload
- Pedagogy is advancing and so is our ability to support good pedagogy at scale via digital technology
- The combination of pedagogy, learning design and open standards is enabling a new assessment ecosystem
- Together we can inspire, share and enhance learning
