

University of Lleida introduction

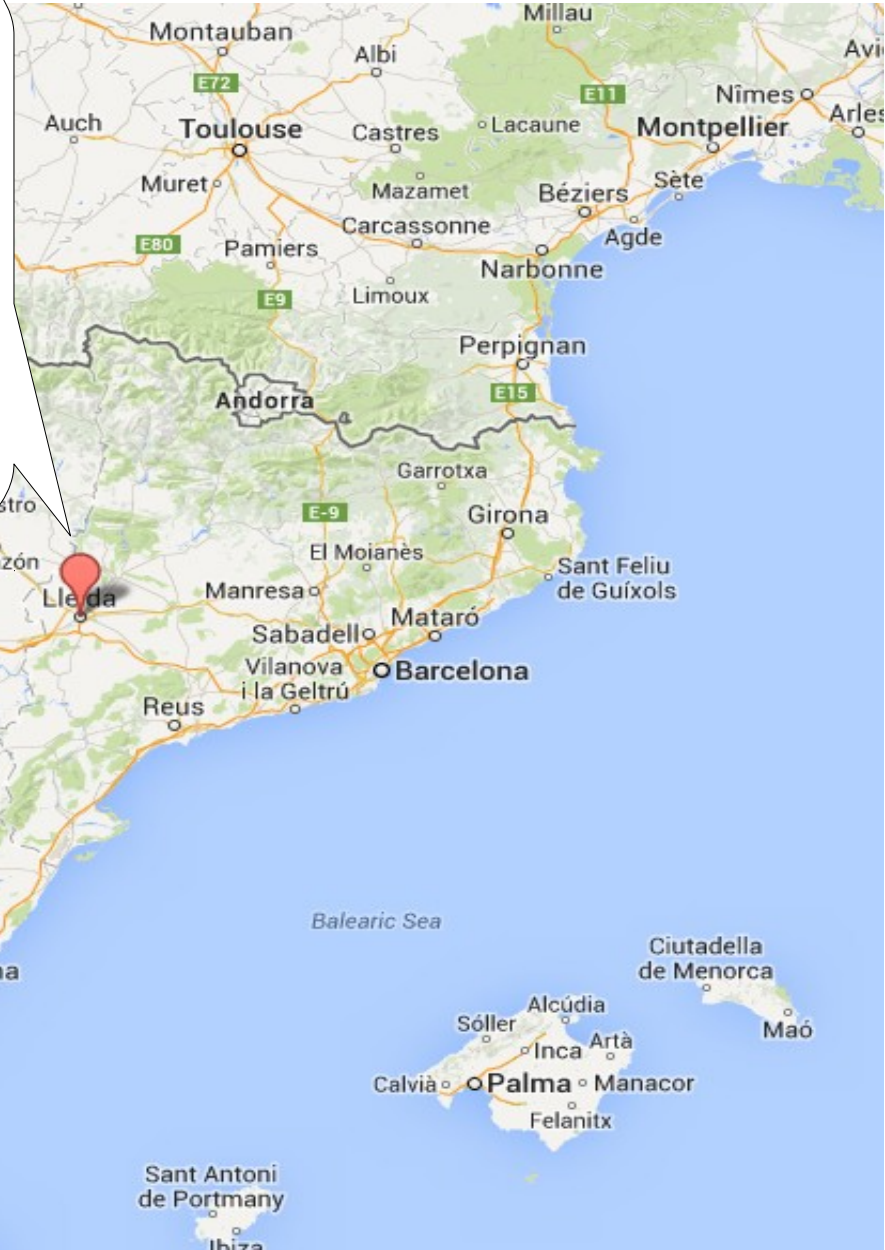

EUNIS ELTF Workshop

New models of learning and accreditation

Universitat Autònoma de Barcelona, 28th-29th April 2014

Where are we from?

~10,000 Students / ~1,100 Faculty

~30 Degree programs / ~30 Master programs

~2,500 subjects/courses

~ 90 research groups

Using Sakai as campus-wide Learning Management System since 2005

The screenshot shows the homepage of the Universitat de Lleida Campus Virtual. At the top left is the university logo and name. On the right, there are social media icons for Twitter, Facebook, and YouTube, with the text "Follow us on:". Below this are language selection links for "Català", "Español", and "English". A navigation bar contains links for "Home", "Intranet UdL", "Reset password", and "Help". The main content area features a large image of a university building with a "Brief guides:" section. The text reads: "Campus Virtuals users can decide which tools want in their sites" and includes a button labeled "Add tools to sites". To the right of the image is a login form with fields for "user id:" and "password:", a "Login" button, and a link for "Access problems? We help you!". The footer contains links for "UdL", "Accés mòbil", "Avis legal", and "The Sakai Project", along with technical information: "Consulteu el [protocol de publicació de materials](#) Campus Virtual UdL - PROD - Sakai 2.9.2 (Kernel 1.3.2)- Server sakai03".

All the official subjects/courses have its corresponding space automatically created in Sakai

Tools by default:

Syllabus
Roster
Resources
Messages
Assignments
Gradebook

Other available tools:

Dropbox
Forums
Test & Quizzes
Wiki

Faculty can create new sites, manage tools and invite external users.

Students can create new sites and invite official users.

We offer integration of external tools via Learning Tools Interoperability (IMS standard). Examples:

- Videoconferencing with Big Blue Button
- Video/audio capture & management with Kaltura
- Plagiarism detection with Turnitin

We have developed a lot of tools using Sakai's Rest API:

- Student record information
- Masters pre-register
- People directory
- Faculty dedication measurement
- Complaints reception tool

Following the development of Apereo Open Academic Environment ([website](#)):

- A new way for students and faculty to create knowledge, collaborate and connect with the world.

Creating Sakai4MOOC, an instance of Sakai focused on offering MOOC's @ UdL:

- Support large number of participants per course
- Showcase of available courses
- Easy registration process

Portfolio tools and learning analytics to improve students' engagement & success:

- Karuta, a new portofolio initiative, LTI enabled ([website](#))
- Open Academic Analytics Initiative ([website](#))
