EUNIS envisions a **digitally transformed European higher education and research sector** where institutions thrive through strategic use of technology, data, and policy engagement.

Our goals

Empower digitalisation professionals as strategic enablers of digital transformation in European higher education and research

Enhance institutional resilience and leverage opportunities in a secure digital landscape

Shape the European higher education technology landscape through policy engagement and advocacy

EUNIS

EUNIS is a non-profit organisation leading **digital transformation in European higher education and research** since 1993

The higher education IT community

Who we are

A non-profit organisation of IT-professionals enabling digital transformation in European higher education.

What we do

- Support digital innovation in HE & research
- Represent the HE sector to policymakers and suppliers

Our membership base

- Higher education institutions
- Research institutes
- National Research and Education
- Networks (NRENs)
- Corporates

Why join us?

- Gain knowledge, resources, and collaborative networks to build resilience, manage risks, and seize new opportunities
- Share good practice in enhancing student experiences, learning outcomes, and institutional effectiveness
- Get help to make better strategic decisions
- Benefit from networking, training and events for staff in many different roles
- Influence policy and the supplier marketplace

EUNIS membership covers all of Europe & beyond

Find out about **membership benefits** for higher education and suppliers and **join us today**
